PROJECTS

- **Property Price Calculator using Java** *1 Jan 2023-1 Feb 2023*
  OOPS Concept **Github**

  – In this project, I designed and implemented a Property Price Calculator using the Java programming language. The aim of the project was to develop a user-friendly application that could accurately estimate the price of properties based on various input factors.

- **Dynamic Array Operations in Java** *Mar 2023 - June 2023*
  Data Structure and Algorithms **Github**

  – In this project, I designed and implemented a Dynamic Array class in Java that supports various essential operations such as adding elements at different positions, deleting elements, sorting, binary search, and merging arrays. The project aimed to showcase my proficiency in object-oriented programming, algorithm implementation, and data structure design while providing a versatile and efficient dynamic array implementation.

TECHNICAL SKILLS

- **Programming Languages**: C++, Java, HTML, CSS, MySQL
- **Tools and Frameworks**: VS Code, MySQL, Sublime
- **Operating Systems**: Windows

KEY COURSES TAKEN

- **CSE & Maths**: Introduction to C++, Object Oriented Programming in Java, Data Structures and Algorithms, Operating System, Database Management System, Discrete Mathematics, Software Engineering
- **Others**: Basic Electronics & Electrical Engineering, Engineering Drawing, Digital Electronics,Mechanical Engineering,Environmental Chemistry

AWARDS AND HONORS

- **MP Start-Up Conclave**,Presented my "Start-Up Idea" in front of honorable Collector-Indore, Shri Manish Singh *May,2022*

- **UDAAN Idea Exhibition**, Won 3rd Price in presenting "My Start-Up Idea" *March,2022*
